A CLEVER THIEF.

Nabbed in St. Albans Last Night and Placed in Jail.

St. Albans, Aug. 13.—A sneak thief who has been busy, plying his calling among the various hardware stores of the city, with considerable success, was landed in the Franklin county jail last evening through the efforts of Chief of Police John F. Mahoney. His plunder, all of which he is thought to have disposed of before his apprehension, consisted in part of two watches, a revolver and a square, stolen from C. H. Hale's store, two watches from Clark & Hatch, a set of hair clippers and a box of rules from Rock & Lavenex.

The crook, who from letters found on his person when arrested, is supposed to be Lemmie Kenney of Fostoria, Mich., arrived here a week ago last night, and attracted the attention of Chief Mahoney, who kept his eye on the stranger as much as possible, owing to his suspicious actions. Kenney's method of operating, was to enter a store, the hardware being his favorite, and inquire the prices of various articles and examine them. He would hang around until a bona fide customer came in to buy, and while the salesman's attention was otherwise taken up would slip some article in his pocket, being careful never to take what he had been looking up. In this way he managed to work his game successfully without arousing suspicion.

YORKSHIRE PIES.

Here is the Way They Were Made in the Olden Days.

The delivery of the Yorkshire pies of siders may be judged by the following recipe from an old fashioned cookery book: "First make a good standing crust, let the meat and lard be very fine, bone a rutting, a grove, a fowl, a partridge and a pigeon; see how them all very well, take half an ounce of mace, half an ounce of nutmegs, a quarter of an ounce of cloves and half an ounce of black pepper, all beat fine together; two large spoonfuls of salt, and then mix them together. Open the fowls all down the back and bone them; first the pigeon, then the partridge; cover them; then the fowl, then the goose and then the turkey, which must be large; season them all well first and lay them in the crust so that it will look only like a whole turkey; then have a large ready eased and wiped with a clean cloth; cut it to pieces—that is, joint it; season it and lay it as close as you can on one side; on the other side woodcock, more game and what sort of wild fowl you can get. Season them well and lay them close; put at least four pounds of butter into the pie, then lay on your lid, which must be a very thick one, and let it be well baked. It must have a very hot oven and will take at least four hours." It is not surprising to find that a fortunate note that the crust requires a bushel of flour.—Chambers' Journal.

The Golden Calf.
The Egyptian women were brought to gold in their ears, which were regarded as the woman's choicest possessions and were parted with only under direst stress. The golden calf was supposed to have been made in their from the earrings of the people.

Only English Pipe.

The only Englishman who ever ruled as pope was Nicholas Breakspear, who was born about the year 1100 at Langley, near St. Albans. He was unanimously elected for the papal chair in 1154 and reigned until the year 1155.
